

# Niluwan

LGMD "SPOTLIGHT INTERVIEW" – 02/18/2016

Name: Niluwan Age: 25 years.

Country: Sri Lanka

LGMD Sub-Type: Unkown

**At what age were you DIAGNOSED?**

I was diagnosed when I was 13 years old.

**What were your first SYMPTOMS?**

I experienced difficulty in climbing stairs.

**Do you have other family members who have LGMD?**

No. I am the only person in my entire family.

**What do you find to be the greatest challenges in living with LGMD?**

The greatest challenge is climbing stairs. Also travel in public transport. It is also a challenge to find a suitable job.

**What is your greatest ACCOMPLISHMENT?**

The greatest accomplishment is completing my studies.

**How has LGMD influenced you into becoming the person you are**

**today:**

LGMD influenced me to become strong and face challenges in the life.

**What do you want the world to know about LGMD:**

Everyone in the world must know about LGMD. Many people don't know what LGMD is. If they know they can provide facilities and help LGMD people.

**If your LGMD could be "cured" tomorrow, what would be the first thing that you would want to do:**

I will run everywhere.
